### EXPERIENCE

#### Odyssey BJJ - Project, Feb 2019 - On Going

- Created a platform for a martial arts instructor to share techniques and instruction with affiliate gyms all in one place by analysing feedback from students and instructors to layout the application in a way that would benefit their needs on mobile and desktop.
- This was achieved by using React, Redux, React-router, Sass, CSS Grid and is hosted on Github pages.

#### Smart Brain - Project, July 2018 - Sept 2018

- Give logged in users the ability to detect and display faces in photos uploaded by them by analysing the data received from the Clarafai face detection API
- Stored users details and a log of how many times they have used the API using PostgreSQL and given the user increased security by hash encrypting the passwords using Bcrypt.
- Front End Skills Used : React, FlexBox, Tacyons and uses Github Pages.
- Back End Skills Used: PostgreSQL.js, Express.js, Bcrypt and hosted on Heroku.

### EDUCATION

#### Udemy - Jan 2018 - On Going

- Javascript30, Advanced React and GraphQL - Wes Bos
- Zero to mastery, Junior to Senior, Advanced Js - Andre Neogioe
