EXPERIENCE

OdysseyBjj, Project

Feb 2019 - On Going

Odyssey Bjj is a video player website that allows Jujitsu instructors from different affiliate gyms to view a library of techniques, notes and view weekly instruction from the head instructor.

It is built using React, Redux, React-router, Sass, CSS Grid and is hosted on Github pages.

Smart Brain, Project

July 2018 - Sept 2018

The Smart brain application uses the Clarafai face detection API to take in a photo, detect and mark a box around the face. It also keeps a record of users login details, hash encrypted passwords and how many photos they have used the API with.

Its front end is built using React, FlexBox, Tacyons and uses Github Pages.

The back end is built using PostgreSQL.js, Express.js, bcrypt-node.js and hosted on Heroku.

EDUCATION

Udemy courses

Jan 2018 - On Going

Javascript, Advanced Javascript, junior to senior - Andre Neogoie
